CAREER OBJECTIVE

To secure a junior frontend or web development role where I can apply my skills in modern web technologies, gain stable professional experience, and continuously improve my technical and analytical capabilities.

PROFESSIONAL SUMMARY

Motivated and disciplined frontend web development graduate with a solid foundation in UI technologies and logical problem-solving. Proficient in HTML, CSS, Tailwind CSS, JavaScript, and React fundamentals, with basic exposure to Python and data handling. Demonstrates structured thinking, attention to detail, and risk-aware decision-making developed through consistent analytical practice. Committed to long-term growth in technology-driven roles.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React (Fundamentals)

Styling & UI Tools: Tailwind CSS, Sass, Responsive Design, Figma

Programming & Data Basics: Python (Basics), Pandas (Introductory)

Professional Skills: Problem-solving, logical reasoning, structured analysis, self-learning

EDUCATION

Bachelor of Computer Applications (BCA)

Mohanlal Sukhadia University, Udaipur, Rajasthan

PROJECTS

Responsive Website Development

- Designed and developed responsive web pages using HTML, CSS, and Tailwind CSS
- Ensured cross-device compatibility and clean UI layout

JavaScript Interactive Features

- Implemented basic interactivity such as form validation and dynamic UI behavior

React Practice Project

- Built reusable components using React fundamentals
- Worked with props, basic state management, and component structure

(GitHub links can be added here)

ADDITIONAL EXPERIENCE

Market Analysis & Decision Framework (Self-Directed)

- Practiced structured observation and scenario-based analysis
- Applied risk management and probability-based thinking
- Developed discipline, patience, and decision accountability
